Prices and Specifications Subject to Change Without Notice.

GENERAL INSTRUCTIONS

PRICES: All prices dealers' net F.O.B. Factory. This price list supersedes all previous price lists. Prices subject to change without notice. If quotation is rendered to any buyer located in a state where the seller is required to pay a sales, use or occupational tax, then said tax will be added to the price quoted and rendered as a part of the invoiced price.

SHIPMENTS: All products are shipped Set Up unless marked Knocked Down (KD) in Standard Packaging column in price list.

RETURNED SHIPMENTS: Unless authorized in writing by the Company, material cannot be returned for credit.

DAMAGE IN TRANSIT: Lyon products are carefully and securely packed for shipment and if carriers handle with ordinary care these products will reach destination in first class condition. The receipt of our goods by the Transportation Company ends our responsibility. Our customers should inspect shipments and protect their interests by refusing to accept damaged shipments until they secure damage notation on freight bill. All claims for delay, loss or damage must be made against the carrier. Due to scarcity of certain critical items, we reserve the right to substitute hardware and fittings of equal quality.

CORRESPONDENCE: Address all communications to the Lyon salesman in your territory. He is in a position to give you prompt service. Do not send orders or letters to General Offices at Aurora.

SHELVING INSTRUCTIONS:

PRICES: The prices listed are for regular standard sizes that will meet practically every shelving requirement for which this prod-

uct is designed. Any other sizes will be special and prices must be secured through your Lyon District Office.

ORDERING: In ordering complete Racks, order by Rack Number, number of First and Additional Sections, and Size. In ordering parts list all items showing (1) quantity, (2) descriptive name, and (3) listed size. The best method is to make a rough front elevation of complete racks and then count the number of up-rights, shelves and accessories required.

LOCKER INSTRUCTIONS:

PRICES: Each locker price shown is per locker door opening and applies to lockers with standard equipment — without lock — shipped Knocked Down.

NOTE: A locker door opening is a single locker opening which may be in a tier 1, 2, 3, 4, 5 or 6 door openings high and for 1, 2, 3, 4 or 5 units wide.

SECTIONIZING: In ordering specify number of locker openings per section and whether single row or double row.

SET UP LOCKERS: When lockers are to be shipped set up, add 15% to total price including all extras except lock. Set up sections cannot be shipped more than 5 feet long in single row, or 4 feet long in double row.

LOCKS: Padlock attachment is an integral part of Lyon locker door handles and is regular equipment whether or not locks are furnished. Add 69c per locker if built-in flat key lock with two keys is required. If other type of lock—combination padlock, etc.—is required, write your Lyon District Office.
